

Getting error "Object library invalid or contains ..." on an Excel

- When you open an excel of "ECALS data Creation Assist Tool", you might find the error message "Object library invalid or contains references to object definitions that could not be found."

- When such an error occurs, you can use the tool so far as is possible by the support of the following.

To correct the error :

■ Using PC with Administrator rights

- ① Click the 'Start button' (bottom left)
- ② Type the following command in the Open box, and press Enter

In case of Windows(XP etc) 32bit OS :

```
regsvr32 C:\Windows\System32\MSCOMCTL.OCX
```

In case of Windows7 64bit OS :

```
regsvr32 C:\Windows\SysWOW64\MSCOMCTL.OCX
```

■ Using PC without Administrator rights

- ① Click the 'Start button' (bottom left) and select 'All Programs'
- ② Click on Accessories
- ③ Right click on 'Command Prompt' and select 'Run as administrator'
- ④ Type in: `regsvr32 mscomctl.ocx` ,and press Enter

Reason

This error appears to occur as a result of MS Office upgrades but may occur under other circumstances.
